### **Uauenee (or the Great Bluff)**

The following excerpts from the *Indian Trade Commissioners Journal, 1716-1718* discusses the location of the Indian Trading House which was being established for the purpose of cultivating trade with the Indians living in areas north of Georgetown, SC.

William Waties, Sr., who owned much land in what is now Horry County, SC, was appointed Factor for that Trading House. The following entries deal with Waties suggestion to the Commissioners that Saukey was the best place for the Trading House and his subsequent decision that Uauenee would be a better place. Over time, the spelling of the name Uauenee has been corrupted to Yauhannah. The name applied to a large area in the vicinity of the Great Pee Dee, Bull Creek and Waccamaw River, that was situated in what we know today as Georgetown and Horry counties. Early King's Grants confirm that the name Uauenee or Yauhannah referred to an area in both present day Horry and Georgetown Counties and not just to one particular place.

In recent years it was assumed that the location that the commissioners were referring to for the Trading House was the Yauhannah Bluff in Georgetown County, adjacent to Highway 701, that particular bluff having retained that name most successfully. That idea is now being challenged. The record refers to, "Uauenee (or the Great Bluff)", "Uauenee (otherwise called the Great Bluff)" and "YourEnee."

There is a very substantial sand bluff in Horry County that runs for approximately one mile along Bull Creek. While the Yauhannah Bluff in Georgetown County is definitely a large bluff and was a place of activity in the early 1700s, if one compares the two bluffs there is no doubt that the one in Horry County would be described as the greater of the two. Also, the land that this bluff is located on remained a government holding longer than the surrounding lands. The Trading House was a government run facility and this could account for it remaining in government hands. Waties' son, William Waties, Jr., later gained title to some of the adjoining land and it seems that he would have applied for the higher bluff if it was available.

For these reasons, as well as for others stated by Waties and recorded in the *Journal*, it is a good possibility that the Great Bluff mentioned in the *Journal* as the location of the Indian Trading House was the Great Bluff on Bull Creek in Horry County.

*William Watis, Factor, having further represented Uauenee (or the Great Bluff) to be the most safe and convenient Settlement, for a trading House, with the Indians, and having offered his Reasons for the same; desired our Determination of that Place for a Factory.*

*The Board taking the same into their Consideration; for the following Reasons, do esteem the said Uauenee (otherwise called the Great Bluff) to be the most commodious Place for a Factory and trade with the Northward Indians; viz.: 1<sup>st</sup>, its Vicinity to our English Plantations, will afford us News from thence, at all Times, by Land, within three or four Days, at most; whereas Saukey (the appointed Place) is much more remote; 2ndly, that Saukey being only covered by the Pedeas, is exposed to the Insults of the Charraws; 3rdly, that (besides the Interest it will be to us, in obliging the Wackamaws, a People of greater Consequence then the Pedeas, by such a Settlement), Uauenee being contiguous to the Wackamaws lies doubly fortified against any forreign Attempt; 4thly, that this place, as on the one Hand, it is preferable for a ready Commerce with the Wackamaws, the most populous of those two Nations; so on the other Hand, 'tis the best seated for a general Concourse and frequent.*

*Samuel Teed (the Carpenter, hired of Capt. *The Board met according to Adjournment.*

*Present: Col. George Logan, Col. Jno. Barnwell, and Capt. Jona. Drake.*

*Wrote to Meredith Hughes, Factor for Wineau, the following Letter; and sent the same per the Periaugoe belonging to that Factory, viz.;*

*"We are now to answer your several Letters, viz.;* one from Watchetsan without Date, received the 3d Instant per John Evans; one dated July the 28<sup>th</sup> past, from Wineau, received per Ditto, and one dated the 3d Instant, this Day received. The Skins in the Periaugoe, came to Hand; but not without Loss and Damage (as usual) for besides the Want of thirty-odd Skins, (according to Evans' Receipt) we find many wet and some rotten and spoiled by means of bad Stowage, and your unadvisedly detaining the Tarpawling (as he informes us) which was provided for no other Use, then to preserve the Goods and Skins, in the Periaugoe, because the Publick had heretofore suffered so much (in the Skins we have received) for want of it.

*The Periaugoe being much out of Repair, when she came down, and having lost the Rudder, Oars and some other Implements belonging to her, occasions so tedious a Stay at this Time, in order to refit her.*

*We have considered the Subject of your several Letters, and find the Dread you have of the Charraws hath occasioned your Removal from our Trading House, at YourEnee, and interrupted the Commerce you had with the Indians there. We have represented the Matter to the Deputy Governour, together with the Circumstances of that Part of the Province, which seems so exposed to the Incursions of the Charraws, and hope speedy Care will be taken for the Security of the Inhabitants there, and to ease them of their present Troubles and Apprehensions; in the Meantime we thought fit to dispatch the Periaugoe back to you, under the Care of these Indians; it being our Will and Order that you come to Charles Town, with our whole Trade and Effects under your*

*Management, together with your Accounts, as soon as you shall find most convenient, where we shall consider of such Measures as you have to offer concerning the Establishment of the Trade with the Indians of Wineau &c. for the Good of the Publick, with more Safety. If you find it expedient for the Publick Service, bring down with you two or three of the Chief Men of the Wackamaws, not forgetting such of them as have been most zealous for our Interest. We send you only six Blankets, not knowing but they may be ingaged by you. As for Provision, you now being among the Inhabitants, we suppose you cannot be in great Want, however we send you three Pounds inclosed, as well to pay what Mr. Waties took up of that Kind (though he never gave us any Account of it) as to supply yourself, until we see you, which we look for shortly, &c.”...*
